INTRODUCTION

This list of references continues the list given in A.E.R.E. - Bib 121 and includes entries for material issued up to December, 1960.

The references are arranged alphabetically within each year and an author index is provided.

The main sources of the references are Science Abstracts, Nuclear Science Abstracts and the library catalogues of the Atomic Energy Research Establishment, Harwell. Where the original article may be less easily accessible than normal, the abstract journal reference is given in addition to the original journal reference.

The following references relate directly to oscillating electromagnetic field containment of plasmas:- 325, 348, 349, 350, 352, 356, 357, 358, 363, 364, 367, 369, 379, 380, 381, 389, 391, 392, 394, 396, 400, 408, 411, 416, 417, 418, 423, 426, 429, 435, 436, 439, 440, 441, 446, 449, 450, 454, 455, 470, 475, 477, 478, 486, 492, 499, 500, 502, 505, 506, 507, 508.
