INTRODUCTION

This list of references continues the list given in CLM-Bib 1 and includes entries for material issued up to December, 1962.

The references are arranged alphabetically within each year and an author index is provided.

The main sources of the references are Nuclear Science Abstracts, Physics Abstracts, and the libraries of the Atomic Energy Research Establishment, Harwell, and Culham Laboratory.

Acknowledgements are given for assistance rendered by Miss S. Pope and L.S. Francis.
